

I Matter: Public Attitudes on Communities in Trinidad (IMPACT)

[INFORMED CONSENT SCRIPT]

Hello, my name is _____ [FIRST NAME ONLY]. I am conducting interviews as part of a research project in this community. The purpose of this research is to learn what residents think about living in this neighborhood, and to get their opinion about some of the services they receive. By participating in this interview and sharing your views, you will be providing important information which will be used to make recommendations for improvements in the community.

I would like to interview the person who is home who had the most recent birthday. Who would that be? May I speak with that person please?

[REPEAT INTRO, IF NECESSARY]

I would like to ask you a series of questions that will take about 30 minutes to answer. There are no foreseeable risks for participating in this research, and there are no benefits to you individually. The information you provide during this interview will be confidential. I will not write down your name or any other identifying information on the questionnaire. Your participation is voluntary. You can refuse to answer any question, and you may stop the interview at any time and for any reason.

Do you have any questions? Would you like to participate in this research project?

[IF YES, GIVE ACKNOWLEDGEMENT FORM] This form explains the purpose of the research and summarizes the information I have just told you. Signing this form is voluntary. You may still participate in the research even if you do not sign the form.
